- ALL Sizes
- ALL Types & Styles
- + Longboards too

2 Ways to use:

1 Over-foot grip

2 Under-floor grip

Easy to Customize
Simply cut for perfect custom fit

100'S OF CHOICES!

Finally, a way for drummers to truly customize & improve their pedals. This Drum Pedal Grip™ kit is big enough to fully cover the top, or bottom, of a pedal, OR partly cover **multiple pedals**. Includes time-saving pre-cut oval for heel (or any other area).

Grip material may be cut with scissors or a hobby knife *[use caution!]* to create a **perfect custom fit** & a variety of other personalized options.

We know that some amount of slip can be good for fast foot movement. Our grip material is designed to give you the perfect balance between just the right amounts of both grip & slip, in perfect harmony.

Grip is a comfortable, textured, resilient polymer, **not** gritty sandpaper. Cleanable surface. Strong adhesive, while removable with low residue.

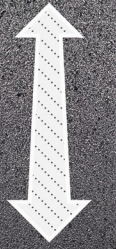

"IT'S LIKE STEROIDS ON MY FEET. I LOVE IT!!!"

Jordan Jensen,
Dark Sermon (Thrash Metal)

Please Note: pedal not included, shown for illustrative purposes only.
